

# Town of Rockland

## Manitowoc County

---

December 30, 2009

To Whom it may concern:

The Town Board of the Town of Rockland, Manitowoc County readily supports the efforts of Ron Baeten in his endeavor to establish an industry in the Town of Rockland at Collins.

The Board believes that the type of rendering process is a safe and environmentally friendly process. The rendering process does not utilize any dead animal carcasses and would not be of any detriment to the citizens of the community. In fact, we really appreciate that there will be employment opportunities for the area! The Rail service that goes through Collins is a great asset and it is good that it can be utilized at that location again.

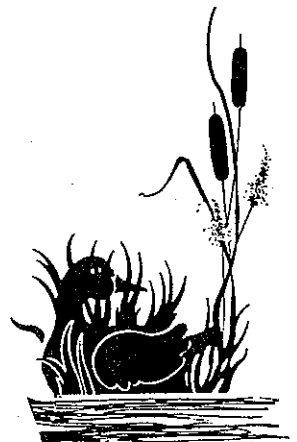

It is with great anticipation that we support Ron Baeten's project and hopefully this will become a reality in our community.

Sincerely,

Renee Seiler, Clerk/Treasurer  
Rockland Town Board  
Manitowoc County

---

June 10, 2008

To Whom it may concern:

The Town of Rockland Board met on Monday, June 9, 2008 to approve the request of Ron Baeten for Countryside Recycling. The building is to be retrofitted for processing of grease and pet food. This is under the auspices of a renderers permit with the condition that NO dead stock processing will be permitted, only materials from grocery stores and butcher shops.

Motion by Eljein Haese and second by Tim Thor to approve the remodeling of the building to allow this recycling process to be in business according to code. Motion carried unanimously.

Sincerely,

Rockland Town Board

Renee Seiler

Clerk/Treasurer
